

## **Diversity, Equity & Inclusion (DEI) statement**

Save Coastal Wildlife nonprofit is an inclusive environmental organization. We celebrate multiple approaches and points of view, and are united across identities, geographies, and cultures. We believe diversity makes the world better. We strive to create a social environment where diversity is valued and where everyone feels empowered to be their full, authentic selves. It is essential for everyone to be equal and treated with dignity and respect if our society is to preserve wildlife. Save Coastal Wildlife's Diversity, Equity & Inclusion (DEI) statement reflects its own commitment to diversity in its Board of Directors, staffing, members, volunteers, purchasing, and advocating for more diversity, equity, and inclusion in environmental education and within science, technology, engineering, and math (STEM).
